School Programs

No matter what size your school's music program, Stage Street Music can enhance and support you and your staff and students. We offer musical instrument rentals as well as instruction in brass, woodwinds, strings, percussion, piano, keyboards, guitar and bass.

In addition, we have two specially structured programs that we bring to your school, regardless of size. Our instruction, rental and stand-alone programs can support, enhance or supplement your school's music education. Stage Street Music's staff consists of instructors who are both highly skilled and versatile players as well as gifted teachers. Contact us today to learn how our professional staff can work closely with your existing music programs or organize a program from scratch.

Program 1: The Performance Package

A program designed for schools and facilities with an existing music program.

Session 1

A sax, bass, drums and keyboard jazz ensemble performs and defines the curriculum to follow in the coming weeks

Sessions 2, 3, 4 and 5

These sessions feature only two musicians who teach improvisation, technique and the essentials of small-group interaction

Session 6

The final session features the full quartet from Session 1 and incorporates the students into a real, live performing situation where they can apply what they've learned.

Program 2: The Complete Package

For schools with a small music program or no program at all. We bring you a standard band program, a full compliment of top-notch instructors who are available to students all day. This package allows your school to offer group lessons, private lessons and instrument rental. Lessons and rentals cover all instruments – brass, woodwinds, strings, percussion, keyboards, guitar and bass.
